TO RACE

KTM TECH AWARD 2023

Kein passender Job für dich dabei?
Dann bewirb dich einfach initiativ!

[JOBS.KTM.COM](https://jobs.ktm.com)*

WHAT DO YOU WANT TO SEE?

With increasing complexity of your race car, sufficient control systems are required to put the performance on the track. Pick your most innovative system and show us how it improves your car in terms of performance, safety, efficiency, or usability. Focus on the benefits compared to the last season's car and note that only applied systems are considered. Briefly explain the required hardware but concentrate on the logic that makes your system the best on the track. If available, prove the performance of your control using measurement data. By the way we don't mind whether your electric pioneers, gasoline enthusiasts or vehicle dynamic specialists.

WHAT DO YOU WANT TO SEE?

To participate at the KTM Control Systems Award, describe your system in a PDF document, max. four pages. Submit your document to vanessa.kainz@ktm.com by 07/12/2023 23:59, at the latest.

KTM Experts will select five finalists based on the submitted documents. On 26.07.2023 the finalists will then have the chance to convince the KTM jury of their system with a presentation and discussion (30 min), preferably directly on the vehicle.

**THE WINNER TEAM WILL GET A TROPHY,
A EXCLUSIVE VISIT IN OUR HEADQUAR-
TER IN MATTIGHOFEN AND 10 MOTOGP
PACKAGES FOR THE EVENT IN SPIELBERG
2023 WORTH 1.800,00€**
