

# **FSA Covid-19 Prevention Concept - Catalog of Activities**

*Updated: 06-07-2022*

This document is under constant revision.

The catalog of activities is subject to legal and operational changes and additions.

This catalog is the intellectual property of the creator and may not be used or modified for other purposes.

## **Introduction**

Due to the COVID-19 pandemic, preventive guidelines are required for all participants and visitors of the Formula Student Austria (FSA) event.

The following COVID-19 catalog of measures describes the basis of the best possible infection prevention for all persons involved.

Despite preventive measures, the prevention of infection is also discussed, in the event that infection nevertheless possibly occurs.

From a medical point of view, this creates the prerequisites for carrying out a wide range of activities.

## **Entry Austria**

If entry to Austria is required prior participation on the event, please inform and adhere to the official regulations:

[https://www.oesterreich.gv.at/themen/coronavirus\\_in\\_oesterreich/pre-travel-clearance.html](https://www.oesterreich.gv.at/themen/coronavirus_in_oesterreich/pre-travel-clearance.html)

## **Catalog of Activities**

All participants of the FSA event are obligated during the entire stay to adhere to all operational as well as legal and legal hygiene requirements and measures, which are set out in this catalog of measures.

### **Prevention concept:**

- A COVID-19 officer shall be appointed.
- A COVID-19 prevention concept must be prepared

## **Organizers and participants**

All persons must be healthy and feel healthy. Persons entering from abroad must comply with the relevant entry regulations at the time of entry to Austria.

Christoph Hirt acts as Covid representative for the FSA event.

## **General hygiene concept**

The basic prerequisite for minimizing the risk of transmission is compliance with all basic hygiene measures.

For this reason, the following rules are mandatory:

### Regular hand washing

- Sinks are available in sufficient quantities throughout the Red Bull Ring premises, which are equipped with sufficient soap. The soap and paper dispensers are checked and refilled at regular intervals in accordance with the cleaning and hygiene concept.

### Hand disinfection

- Disinfectants are available at the central points of the site, i.e. at all entrances, exits and passages. These are also checked and replenished at regular intervals in accordance with the cleaning and hygiene concept.

### Coughing and sneezing hygiene

When coughing and sneezing

- Hold the crook of your arm in front of your mouth and nose

- Turn away from other persons

Wash hands thoroughly after blowing nose, sneezing or coughing.

### **Hygiene equipment**

Hygiene items (soap and paper towels) are available in the sanitary facilities area.

For the personal hygiene equipment (mouth-nose-protection, personal hand disinfectant) is each participant responsible on their own.

## **Handling individuals with suspected COVID-19 infection**

Possible symptoms such as

- impairment of sense of taste or smell
- fever
- coughing and sore throat and limbs
- breathing problems

require immediate notification of the responsible contact person and prohibit the participation as well as presence at the FSA event.

If specific symptoms occur, the following steps should be taken:

- No contact with other persons
- inform FSA COV responsible
- Stay in the accommodation
- Immediately report to contact person
- Call COVID-19 hotline (1450)
- Follow the instructions of the hotline

This ensures that if COVID-19 is clinically suspected, all further regulatory measures and guidelines are followed.
